## 2016 Eco Fiesta - Sunday 5th June 2016 Queens Gardens

Eco Fiesta is a free community event that focuses on sustainability and environmentally focused themes. It includes live entertainment and environmentally sustainable workshops filled with ideas to assist the community in becoming more environmentally conscious and sustainable. There is an option for attendees to make a gold coin donation upon entering the event to offset their carbon footprint. These donations are distributed and presented to environmentally focused non-profit organisations at the following year's event.

## 2016 TOWNSVILLE PLANT AND GARDEN EXPO Saturday 27 August and 28 August Riverway Pioneer Park

Last years plant and garden expo was a great success. The day was focused on educating the public about plants that they could grow in their garden in Townsville and that they could use in a salad or stir fry.

We are looking for ideas for this years expo so if you have any great ideas and might also like to help out please come along to a meeting.

## PERMACULTURE TOWNSVILLE AGM

Our AGM was held on 31<sup>st</sup> October 2015 and we had a terrific attendance, packing the room to the rafters at the NQCC office on Boundary St. It was great to see so much interest and even better that so many people put their hands up to fill various positions within our community organisation. It means that we now have a variety of areas with co-ordinators to help members and supporters who wish to lend a hand and become more involved in whatever way they can. Remember many hands make light work and we truly appreciate all efforts, no matter how big or small, that members and supporters make towards helping us run our organisation.

Following is a list of committee members and co-ordinators and their contact details. If you have some spare time, even if it's just a few hours a week, and you see an area you'd be interested in helping out in then please contact the relevant person and they'll help you out.
